

Teacher Package

Academic Lesson

Title: **Proposal for a New Resort Location**

Time requirement: Prior learning and skill development:
1 period of 70 minutes each
MFworks lesson:
1 to 2 periods of 70 minutes each
Student research and proposal writing:
1 to 2 periods of 70 minutes each

Teacher Instructions:

- Description of the Task
(see Academic Performance Task, Expectations and Rubric).
- Final Product
Each student is to develop a proposal for a new resort location. In their proposal, students are to justify their site selection and the type of resort they are proposing. The final report will demonstrate how their collected research justifies their proposed location. Students are instructed to include supporting visuals, such as maps, graphs, charts, diagrams, or pictures, in support of their proposals.
- Assessment and Evaluation
The final product will be assessed using the Expectations and the Performance Task Rubric. Formal and informal assessment of the students based on prior knowledge, lesson objectives, analyses of the composite image and production of their MFworks Map; research process can be done using the Background Information, the students' activity sheets (on the Background and on the MFworks lesson), and the Follow-up knowledge and activity on Remote Sensing. In this lesson, students are going to learn about Remote Sensing in particular how to do an image interpretation and how an image is produce?
- Accommodations
Accommodations that are normally provided in the regular classroom for students with special needs should be provided in the administration of this performance task.
- Rubric
Introduce the task-specific rubric to the students before giving the administrative task. Review the rubric with the students and ensure that each student understands the criteria and descriptions for achievement at each level.
Some students may perform below level 1. It will be important to note the characteristics of their work in relation to the criteria in the assessment rubric and to provide feedback to help them improve.
