

Canada's Parks and Conservation Areas

Student Activity Sheets

Name: _____

**Most of the answers to these questions can be found in the Parks and Conservation Areas background sections.*

1) What are the forms of regulative measures legislated by the different levels of Canadian governments that protect our land? Explain briefly the purpose of each one.

2) What is an IUCN and what is its mandate?

3) Which National Park was created first, and why was it established?

4) When creating a new National Park, what is the first priority?

5) Who maintains the National Parks? _____

6) What do we mean by Park's regulations? Explore the Parks Canada Web site: <http://www.parkscanada.pch.gc.ca/>. Choose a park and provide a list of the specific regulations of that park. The background information on Parks and Conservation Areas will help you do this task.

7) What are some of the offences a person could be guilty of and liable for a fine or imprisonment in a Canadian National Park?

8) Research why there is such a difference in fines from the Threatened species from list 1 and the Protected species from list 2. What do we mean by Threatened and Protected?

9) What are the different classes of Provincial Parks? Explain in your own words how they are different.

10) Why are protecting Migratory Bird Sanctuaries and National Wildlife Areas important?

11) Give the three types of Wildlife Management Areas and explain their functions?

12) Knowing that International Protected Sites are design to protect natural and man-made sites of “outstanding universal value” as World Heritage Sites, choose one of our seven Canadian International Protected Sites and explain what is it’s “outstanding universal value”.

13) Name five Canadian RAMSAR sites and explains what each site protects.

PROTECTED AREAS OF CANADA OVER 1000ha.
