

Water Resources and Pollution in Canada

Student Activity Sheets

Name: _____

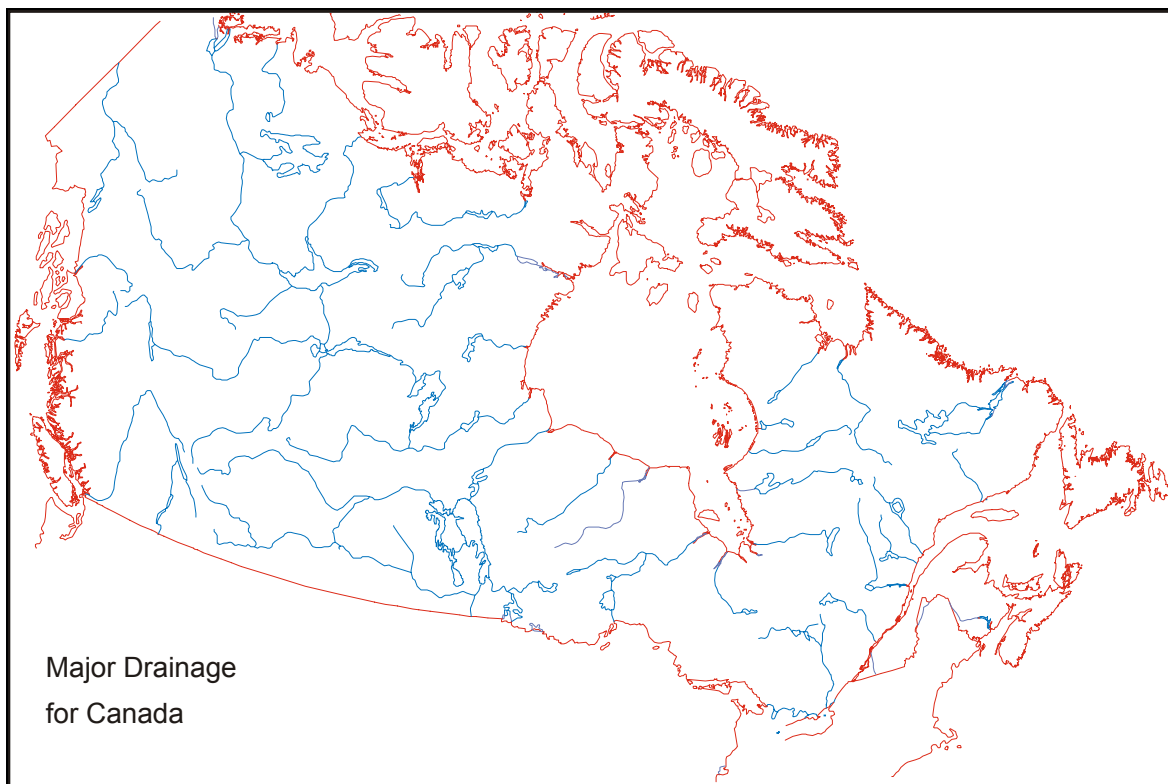

**Most of the answers to these questions can be found in the Water Resources and Pollution Sources in Canada background sections.*

- 1) Match the numbers on the map to the names of the water bodies, rivers and lakes in the Table on the next page.

Major Water Bodies		Major Rivers	
	Arctic Ocean		Mackenzie River
	Atlantic Ocean		St. Lawrence River
	Pacific Ocean		Columbia River
	Belle Isle Strait		Fraser River
	Bay of Fundy		Yukon River
	Admunsen Gulf		Nelson River
	Hudson Bay		South Saskatchewan River
	James Bay		
	Queen Charlotte Str.	Major Freshwater Lakes	
	Foxe Basin		Great Slave Lake
	Juan de Fuca Strait		Lake Superior
	Hudson Strait		Lake Winnipeg
	Queen Maude Gulf		Lake Erie
	Gulf of St. Lawrence		Great Bear Lake
	Coronation Gulf		Lake Huron
	Hecate Strait		Lake Michigan
	Ungava Bay		Lake Ontario

- 2) Can you draw the major drainage divides between the drainage systems? The dividing line follows the high ground from which the water flows downward into the valleys. Remembering where the mountain ranges are will give you a start. Show the four largest watersheds and indicate to which ocean they flow. Overlay the drainage basin map and see how close you came to predicting the watersheds.

Ecozone names	Total Area (ha)	Water Area (ha)	Water as %of area	Discharge sites	No. of mines	No. of mills
Arctic Cordillera	24218992	588129	0.02	0	0	0
Northern Arctic	150787239	16951955	0.11	1	4	0
Southern Arctic	83976042	19440507	0.23	0	1	0
Taiga Plains	65212536	10300907	0.16	18	0	1
Taiga Shield	138182116	30421678	0.22	4	2	0
Boreal Shield	193751675	31664613	0.16	181	32	49
Atlantic Maritime	21386312	1717260	0.08	140	16	26
Mixedwood Plains	16820378	5842462	0.35	513	10	22
Boreal Plains	73728656	7301227	0.10	157	4	12
Prairies	46509379	1104775	0.02	234	9	1
Taiga Cordillera	26537469	500145	0.02	0	0	0
Boreal Cordillera	46786981	1694849	0.04	15	8	0
Pacific Maritime	20792528	625532	0.03	315	3	14
Montane Cordillera	48789560	1677879	0.03	434	9	6
Hudson Plains	37371829	2770218	0.07	2	0	0

3) From the table above, which ecozone has the proportionally largest amount of water?

4) From the number of pollution producing factors listed in the Background Information, which ecozone would you estimate to be most polluted?

5) What are the industries within your region that contribute to pollution?

3D map of Ottawa Valley

6) Determine the water drainage basin for the headwaters of the Ottawa River.

7) What water control features are built on this river system?

8) How is water managed and why?

9) What pollution contributors can you identify in the region?

10) What are the potential pollution sources?

11) How is the water for human consumption protected? (Water treatment- intake, sewage treatment –outflow)

12) Why are the Ottawa beaches sometimes closed after heavy rains?
