

Teacher Package

Academic Lesson

Title: **Proposal for the Location of a New Business**

Time requirement: Prior learning and skill development:
1 period of 70 minutes each
ArcView lesson:
1 to 2 periods of 70 minutes each
Student research and proposal writing:
1 to 2 periods of 70 minutes each

Teacher Instructions:

- Description of the Task
(see Academic Performance Task, Expectations and Rubric).
- Final Product
Students are asked to use these skills to determine the location for a new business. The type of enterprise being proposed is to be researched to determine the ideal location based on closeness to: population centers and various transportation networks. Students are instructed to include supporting visuals, such as maps, graphs, charts, diagrams, or pictures, in the proposal.
- Assessment and Evaluation
The final product will be assessed using the Expectations and the Performance Task Rubric. Formal and informal assessment of the students based on prior knowledge, lesson objectives, production of their ArcView Map, research process done using the Background Information, the students' activity sheets (on the Background and on the ArcView lesson), and the Rubric for assessing Maps. Self- or peer assessments and collaboration may be useful to the teacher and students.
- Accommodations
Accommodations that are normally provided in the regular classroom for students with special needs should be provided in the administration of this performance task.
- Rubric
Introduce the task-specific rubric to the students before giving the administrative task. Review the rubric with the students and ensure that each student understands the criteria and descriptions for achievement at each level.
Some students may perform below level 1. It will be important to note the characteristics of their work in relation to the criteria in the assessment rubric and to provide feedback to help them improve.
