

Teacher Package

Academic Lesson

Title: Climate Change

Time requirement: Prior learning and skill development:
1 period of 70 minutes each
ArcView lesson:
1 to 2 periods of 70 minutes each
Student research and proposal writing:
1 period of 70 minutes each

Teacher Instructions:

- Description of the Task
(see Academic Performance Task, Expectations and Rubric).
- Final Product
Students are to write a short report outlining how climate change will effect selected ecozones in Canada. The report is to present collected research on the issue of climate change. Student are instructed to include supporting visuals, such as maps, graphs, charts, diagrams, or pictures, in their report.
- Assessment and Evaluation
The final product will be assessed using the Expectations and the Performance Task Rubric. Formal and informal assessment of the students based on prior knowledge, lesson objectives, production of their ArcView Map, research process done using the Background Information, the students' activity sheets (on the Background and on the ArcView lesson) and the Rubric for assessing Maps. Self- or peer assessments and collaboration may be useful to the teacher and students.
- Accommodations
Accommodations that are normally provided in the regular classroom for students with special needs should be provided in the administration of this performance task.
- Rubric
Introduce the task-specific rubric to the students before giving the administrative task. Review the rubric with the students and ensure that each student understands the criteria and descriptions for achievement at each level.
Some students may perform below level 1. It will be important to note the characteristics of their work in relation to the criteria in the assessment rubric and to provide feedback to help them improve.

Teacher Package

Applied Lesson

Title: **Climate Change**

Time requirement: Prior learning and skill development:
1 period of 70 minutes each
ArcView lesson:
1 to 2 periods of 70 minutes each
Computer Presentation
1 period of 70 minutes each
