

Synopsis Chart: Lesson Plans on Sustainable Development			
Lesson Plans	Learning Expectation	Assessment	Tasks
Unit 1			
The Yarn of Life	GC1.01, HEV.03, HE1.03	-Open-ended questions -In-class questions and answers -Discussions	Communicate values related to the earth.
The Ecological Footprint (Homework 1)	UC2.02	-Test – multiple choice	Examine your ecological footprint.
Dismantling Sustainable Development	HEV.03, GC1.01, HE1.03, UC2.03	-Organizers (webs) and visuals (tables)	Develop a class charter for sustainable development
The Historical Path of Sustainable Development (Homework 2)	SSV.03, SS1.05, HEV.03, HE1.03, HE2.05, HE3.03, GCV.03, GC1.05, UCV.03UC3.06	-Poster and summary presentation. (Give the Rubric - Poster and presentation to the student)	Provide a summary of the major strategies for sustainable development (Should be evaluated in Unit 3)
Unit 2			
Share the Wealth	HEV.01, HEV.02, HE1.01, HE1.03, HE2.05, UC3.04	-Simulation games -In-class questions and answers -Open-ended questions -Discussions	Examine the consumption of renewable resources and explore the techniques used to manage these resources sustainably
The Apple of Our Eye	HE1.03	-Simulation game -In-class questions and answers -Open-ended questions	Explores the carrying capacity of the earth and reveals the necessity of managing resources sustainably.
Ecological Footprint Discussion	UC2.02, GC1.02	-Test – multiple choice -Tally test to see ecological footprint -Provoke a debate of the class ecological footprint -Comparison of their ecological footprint to other countries in the world	Students discuss the size of their ecological footprint and compare it to North American standards and to other countries.
The Yarn of Life: Part 2	HEV.01, HE1.03, HE2.05, GC1.01, UCV.01, UC1.02	-Discussions -Human organizer (web) -Open-ended questions	Review the values identified in Unit one and discuss ways of preserving them from environmental threats.

Unit 3 The Sustainable Development Timeline Sustainable Development around the World	SSV.03, SS1.05, HEV.03, HE1.03, HE2.05, HE3.03, GCV.03, GC1.05, UCV.03, UC3.06	-Group work -Discussions -Poster and summary presentation (Evaluate using - Poster and presentation Rubric)	Present the summaries assigned to student groups in unit 1.
	HEV.02, HEV.03, HE1.03, HE2.05, HE3.03, UCV.01, UC3.04, UC3.05	-Group work -Discussions -Charts of Human Development data set -Research -Evaluate using Rubric Action Plan and Recommendations for a Country	Analyse sustainable development practices in various parts of the world.
Unit 4 Discussion: Agriculture of the World using the Background Information on Sustainable Agriculture GIS Lesson: Global Sustainable Agriculture GIS Homework (Research paper on Global Sustainable Agriculture)	HEV.02, HEV.03, HE1.01, HE2.04, UCV.01	-Discussions -In-class questions and answers -Open-ended questions	Research Background Information on global agriculture resources and sustainable agriculture.
	GIV.02, GI1.02, GI2.02, GI3.01	-ArcView GIS Lesson on computer -Questions and answers with a partner -Cartographic Skills Rubric	GIS analysis of global agriculture (exports, imports, labour, production, fertilizer, etc.)
	HEV.03, HE2.02, HE2.04, GI1.01, GI2.02, GI2.06, GI3.01	-Research paper on an additional aspect of agriculture with background Information and a define GIS project. -Students will acquire GIS data and define the implication for sustainable development. -Evaluate research paper using a rubric.	Further GIS analysis on Global Sustainable Agriculture. Students will conduct an independent inquiry that applies the geographic knowledge acquired in this module using their creativity.
