

ACTIVITY 2: HOMEWORK

LEVELS:

Grade 12, University Preparation

COURSES:

Canada and World Issues
UC2.02

TASK:

For homework, have your students take the ecological footprint quiz.

EXPECTATIONS:

The student will:

- Evaluate sustainability trends related to their consumption behaviours.

TIMEFRAME:

15 Minutes

ACHIEVEMENT CATEGORIES:

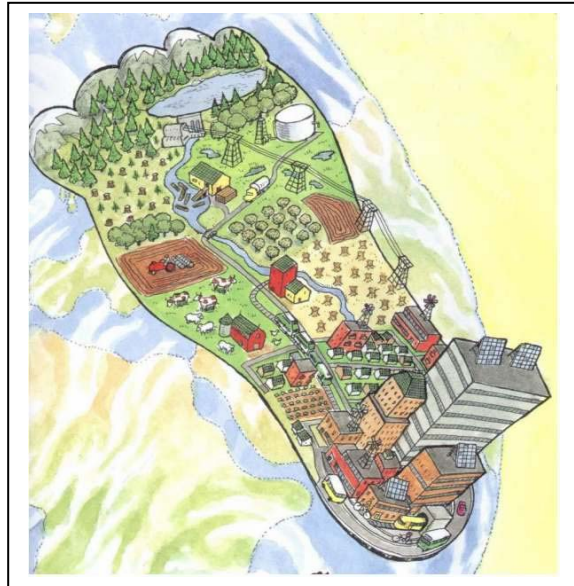

Knowledge / Understanding
Thinking / Inquiry
Application / Making Connections

MATERIALS:

Worksheet 1: Ecological Footprint Quiz

VOCABULARY:

Renewable energy
Energy efficiency

your Ecological Footprint

PROCEDURE

Have your students take the ecological footprint quiz (See Worksheet 1) for homework. Encourage them to involve their parents/guardians in completing the quiz properly. This is important because most of your students will probably not know what fuel is used to heat their house.

In unit 2, you will be discussing the ecological footprint with your class so your students should complete the quiz for the next day of class (See Unit 2, Activity 7).
