

Assessment and Evaluation of Student Achievement

Lesson Plans	Categories Methods	Performance Assessment	Personal Communications
Unit 1 The Yarn of Life	Thinking / Inquiry Formative	-Open ended questions -In-class questions and answer	-Allows for assessing basic creative thinking skills. -Allows for more in-depth questioning; encourages students to explain their reasoning.
	Communication Formative	-Discussions	-Allows for expression of thoughts and communicating ideas verbally.
The Ecological Footprint (Homework 1)	Knowledge / Understanding Formative	-Test-multiple choice	-Can determine students' understanding of relationships between their values and the impact of their actions on the earth.
	Application / Making Connections Formative	-Simulated real world performance (Parents involvement on establishing the family ecological footprint)	-Method to get 'authentic' and simulated real world performance.
Dismantling Sustainable Development	Knowledge / Understanding Formative and Summative	-Organizers (webs) and visuals (tables). (see rubric for summative evaluation of suggested homework)	-In-class group discussions to determine and categorize what they think are the issues for Canada's progress towards sustainable development.
	Thinking / Inquiry Formative and Summative	-Organizers (webs) and visuals (tables).	-In-class discussions. -Allows for more in-depth questioning; encourages students to explain their reasoning.
	Communication Formative and Summative	-Discussions	-In-class discussions. -Allows for expression of thoughts and communicating ideas verbally.
	Application / Making Connections Formative and Summative	-Review the class charter on sustainable development to incorporate it into student's lives.	-'Authentic' and 'outside' the school contexts.

The Historical Path of Sustainable Development (Homework 2)	Knowledge / Understanding Formative and Summative	-Evaluate approaches, policies, and principles relating to the protection and sustainability of the planet's life-support system. (Distribute the rubric Poster and presentation Rubric for homework 2 to be evaluated in Unit 3, Activity 9)	-In-class group discussions. -Allows for evaluation of depth of understanding approaches, policies, and principles relating to the protection and sustainability of the planet's life-support system.
	Thinking / Inquiry Formative and Summative	-Research and identify the contributions made by your assigned event to sustainable development strategies and evaluate their economic, environmental and social impacts.	-Allows for evaluation of complex critical / creative and inquiry skills on their Timeline of Sustainable Development. -Allows students to explain their reasoning.
	Communication Formative and Summative	-Discussions -Presentation of their poster.	-Allow for communication in all forms – written, oral, and visual. -Allows for expression of thoughts and communicating ideas.
	Application / Making Connections Formative and Summative	-Identify individuals who have made a significant contribution to sustainable development and evaluate their impacts.	-Allows for knowledge on sustainable development to be presented in a sequential order and to be applied to new situations / problems.
