

ACTIVITY 7

LEVELS:

Grade 12, University Preparation

COURSES:

Canada and World Issues
UC2.02

TASK:

Students will have the opportunity to discuss the ecological footprint quiz and compare their results with the average North American and with other country averages.

EXPECTATIONS:

The student will:

- Evaluate sustainability trends related to their consumption behaviours.

TIMEFRAME:

15 Minutes

ACHIEVEMENT CATEGORIES:

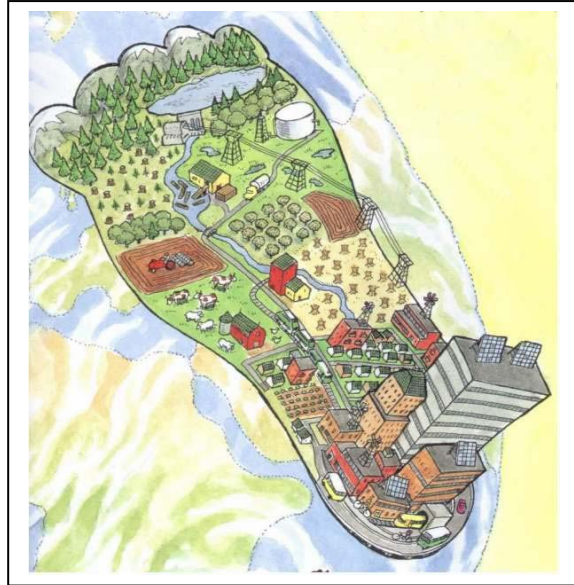

Knowledge / Understanding
Thinking / Inquiry
Application / Making Connections

MATERIALS:

- Copy of Ecological Footprint Quiz
- Appendix 5
- Explaining the ecological footprint

VOCABULARY:

Renewable energy
Energy efficiency

Your Ecological Footprint

DISCUSSION ON THE ECOLOGICAL FOOTPRINT

KNOWLEDGE / UNDERSTANDING

1. What scores did everyone receive on their ecological footprint quiz?
2. What questions on the quiz were particularly influential in increasing your ecological footprint?
3. What responses enabled you to have a smaller ecological footprint?

APPLICATION / MAKING CONNECTIONS

4. What is the significance of the ecological footprint?

THINKING / INQUIRY

Start a discussion of the following:

5. Why do poorer countries have smaller ecological footprints?
6. What course of action, if any, should we take to make our footprints smaller?
