Procedure

Watch the film “Global Village or Global Pillage?” on how people around the world are challenging corporate globalisation. This film can be borrowed by Ottawa teachers from World Inter-Action Mondiale (www.web.net/~wia). Other globalisation films are listed in the resource section of this module. Visit your local library or social justice groups for films in your area.

While your students are watching the film, provide a list of questions that would be suitable for discussion on global corporations and financial institutions.

Examples of questions:

- Discuss the role of global financial institutions in the global economy. Discussion could focus on the world trade organization, IMF and World Bank.
- What is the relationship between multi-national corporations (global corporations) and international financial institutions?
- Why are so many people upset about these financial institutions and the growth of global corporations?
- What are some alternatives to corporate dominance?
- How do they affect you?
